HAVING STATEMENT.

↳ THIS STATEMENT ALLOWS US TO FILTER DATA THAT HAS ALREADY BEEN AGGREGATED.

```
SELECT COLUMN1,
FROM table agg_function (column2) AS descriptive_name
GROUP BY column1
HAVING CONDITION;
```

↳ HAVING STATEMENT ALLOWS TO FILTER DATA THAT IS GROUPED.

* "WHERE" STATEMENT FILTERS RAW DATA
"HAVING" STATEMENT FILTERS GROUPED / AGGREGATED DATA

↳ FOR YOU TO USE A HAVING STATEMENT YOU NEED TO FIRST AGGREGATE YOUR DATA AND GROUP IT TO A SPECIFIC CATEGORIES THEN YOU CAN FILTER THE GROUPED DATA USING THE HAVING STATEMENT.
